Formal psychological testing is neither clinically indicated for routine screening/assessment of behavioral health disorders nor indicated for the administration of brief behavior rating scales and inventories. Such scales and inventories are an expected part of a routine and complete diagnostic process. Other than in exceptional cases, a diagnostic interview and relevant rating scales should be completed by the psychologist prior to submission of requests for psychological testing authorization. Requests for placement purposes, disability evaluations and forensic purposes are not covered benefits. Requests for educational testing or educational assessment for learning disabilities should be referred to the public school system. **This form is for psychological testing requests only. Requests for neuropsychological or autism testing need to be completed on their requisite forms.**
