

Medical Policies and Clinical Utilization Management Guidelines

Attached is a list of the *Clinical UM Guidelines* and/or *Medical Policies* the health plan has adopted.

The full list of *Medical Policies* and *Clinical Utilization Management (UM) Guidelines* are publicly available on the [***Medical Policy \(Coverage\) and Clinical UM Guideline subsidiary website***](#). Their purpose is to help you provide quality care by reducing inappropriate use of medical resources.

InterQual[®] Criteria or MCG[®] care guidelines are used only for:

- Medical necessity review for medical inpatient concurrent review.
- Inpatient site of service appropriateness.
- Home health and outpatient rehabilitation.

Medicaid state contracts, regulatory guidance and CMS requirements supersede InterQual Criteria, MCG care guidelines and our *Medical Policy* criteria.

Note: We make determinations of medical necessity on a case-by-case basis in accordance with the definition of medical necessity. Please see *Medical Necessity Criteria Policy ADMIN.0004* for the definition.

If the request doesn't meet established criteria guidelines, it will be referred to the licensed physician reviewer with the appropriate clinical expertise.
