

New specialty pharmacy medical step therapy requirements

Effective for dates of service on and after January 1, 2021, the following specialty pharmacy codes from current or new clinical criteria documents will be included in our existing specialty pharmacy medical step therapy review process. Step therapy review will apply upon precertification initiation or renewal in addition to the current medical necessity review of all drugs noted below. Bevacizumab (under Brand names: Avastin, Mvasi, and Zirabev) is preferred for the indication of wet age-related macular degeneration.

The clinical criteria below will be updated to include the requirement of a preferred agent effective January 1, 2021.

Clinical Criteria	Status	Drug(s)	HCP Codes
