

August is Immunization Awareness Month

08/05/2020

(Aug 5, 2020) August is Immunization Awareness Month! Please make sure your children are up to date on their shots. Immunizations help prevent diseases, such as Hepatitis B, Polio, and Measles, Mumps, Rubella (MMR), or (MMRV). Schedule an appointment with a doctor now! Please see the following awareness materials and resources below.

- [Well Child Visits](#)
- [Well Child Poster](#)
- [We Are Here for You](#)
- [Stay on Track](#)
- [Social Distancing](#)

If you are a member, visit the Department for Public Health's [immunization page](#) for more information. If you are a provider and would like to participate in the Vaccine for Children Program, visit their [website](#).
