

MEDICAID PROVIDER BULLETIN

October 2018

Taxonomy code billing requirement change for federally qualified health center and rural health clinic providers

Effective August 1, 2018, Anthem Blue Cross and Blue Shield Medicaid no longer requires a taxonomy code for federally qualified health center and rural health clinic provider types 31 and 35 with a specialty of 80 or 82 identified in box 33b of the *CMS-1500* form, or a Loop 2000A PRV segment entered on an electronic claim submission.

Omitting the taxonomy code will still allow a wrap payment to be issued as appropriate from the Department for Medicaid Services.

If you have questions about this communication, please contact your Provider Relations representative or the Provider Services department at **1-855-661-2028**.
