

Clinical edit for botulinum toxin and specified drug screening implementation

Effective June 28, 2020, clinical edits will be implemented to approve or deny select services based on Nevada's *Medicaid Services Manual*.

What does this mean to me?

Procedure codes for the below bulleted items will be configured to either approve the service based on the diagnosis billed or deny as not medically necessary, based on Nevada's *Medicaid Services Manual*:

- Botulinum toxin utilization will be considered medically necessary for specified diagnoses only.
- Presumptive drug testing in any combination of codes will not be allowed if billed more than one unit per day by any provider.
- Presumptive drug testing in any combination of codes will not be allowed if billed more than 20 units per year by any provider.
- Definitive drug testing will not be allowed if billed more than three units per year by any provider.

What if I need assistance?

If you have questions about this communication or need assistance with any other item, call Provider Services at **1-844-396-2330**.
