SECTION IV: INDIVIDUAL TREATMENT GOALS

Treatment Goals/Progress:

- Describe person-centered, recovery-oriented, trauma-informed mental health treatment goals as they relate to requested treatment. Include individual strengths/barriers/gaps in service, and written in own words of individual seeking treatment/or in a manner that is understood by individual seeking treatment. If individual has identified a history of trauma, please include trauma-informed care interventions in the treatment plan.
- Services are intended to include goal directed training/interventions that will enable individuals to learn the skills necessary to achieve or maintain stability in the least restrictive environment. Providers should demonstrate efforts to assist the individual in progressing toward goals to achieve their maximum potential.
- Please demonstrate that the individual is benefiting from the service as evidenced by objective progress toward goals or modifications and updates that are being made to the treatment plan to address areas with lack of progress.

Resources and Strengths: Document individual's strengths, preferences, extracurricular/community/social activities and people the individual identifies as supports.

Please describe any barriers to treatment:

How many hours each week will at least one family member be committed to participate in treatment?

How many hours per week of on-site supervision or direct counseling/therapy by an LMHP Type will be provided:

If no in-home counseling/therapy is provided in the home, why, and who is providing therapy/counseling and what is the frequency?

Goal/Objective (Please provide objective measures to demonstrate evidence of progress. Measurable objectives should have meaningful tracking values; avoid percentages unless able to track and measure percent completion i.e. if 80%, state 8 of 10 as a more trackable value):

Please describe where the member is now regarding this specific objective.

How many days per week will be spent addressing this goal on average?

What specific counseling and interventions that will be provided to address this goal?
