

## **New for PCP – reimbursement for interdisciplinary care team participation**

Anthem HealthKeepers Medicare-Medicaid Plan (MMP), a Commonwealth Coordinated Care plan will now provide reimbursement to primary care physicians for participation in interdisciplinary care team (ICT) meetings for our members.

Each Anthem HealthKeepers MMP member has an ICT assigned to assist with developing care plans, collaborating with other team members and providing recommendations for the management of the member's care. Typically, the team can be made up of the member and his or her designee, designated care manager, primary care physician, behavioral health professional, the member's home care aide or long term services and supports provider.

Anthem HealthKeepers MMP understands that primary care physicians have an important vantage point on the overall health and well-being of a member and are essential to the success of a member's ICT.

### **Reimbursement eligibility**

Each time you participate in an ICT, you will be eligible to receive a \$100 reimbursement which is paid when you submit a claim using S-Code S0221: *Medical conference by a physician with interdisciplinary care team of health professionals or representatives of community agencies to coordinate activities of patient care.*

For additional information about PCP ICT participation reimbursement, please contact Provider Services at **1-855-817-5788** or your Provider Network representative.
