## Normal newborn diagnosis-related group claims processing update

Effective November 1, 2018, Anthem Blue Cross and Blue Shield (Anthem) will update the claims processing system to ensure accurate payment of newborn claims in accordance with Wisconsin normal newborn diagnosis-related group (DRG) requirements and Anthem's inpatient authorization requirements.

All newborn inpatient stays must have sufficient documentation provided to support an admission to an area beyond the newborn nursery, such as a neonatal intensive care unit (NICU) or for the higher level of care associated with the more complex newborn DRG. Documentation to support the higher level admission includes authorization or medical records.

Failure to provide the appropriate documentation will result in the claim being processed based on the normal newborn rate. Please note that current authorization guidelines for normal newborn and higher level of care baby inpatient stays will be applied.

### What is the impact of this change?

- Newborn claims billed with higher level of care newborn DRG codes (tables A and B) must have the required documentation on file. If the required documentation is not on file, the claim will be processed based on the normal well-newborn DRG rate.
- Documentation is required for reimbursement of non-normal newborn care or an inpatient stay beyond the normal well-newborn period or admission to an NICU.
- When newborn claims are submitted with only newborn care revenue codes (170 and 171) and there is no authorization for services provided for a higher level of care to support the higher level of care DRG, the claims will automatically be paid down to the normal newborn rate.

### ***Explanation of Payment code***

Based on the above, we have implemented a new explanation (EX) code A 59 (DRG billed does not match the revenue code submitted). This code will appear on your *Explanation of Payment* when a claim is billed with a higher level of care newborn DRG code and the required authorization for the higher level of care is not on file.

You may appeal your request for payment of the higher acuity DRG by submitting the appropriate supporting clinical documentation. Please follow the normal appeal process detailed in our provider manual, which is available online at <https://mediproviders.anthem.com/wi>.
