## Hemophilia factor injections to require prior authorization

Effective September 1, 2017, Anthem Blue Cross and Blue Shield requires prior authorization (PA) for hemophilia factor injections for BadgerCare Plus members when provided in the outpatient setting. Federal and state law as well as state contract language including definitions and specific contract provisions/exclusions take precedence over these PA rules and must be considered first when determining coverage. **Noncompliance with new requirements may result in denied claims.**

- J7179 — injection of von willebrand factor (recombinant), vonvendi, 1 IU
- J7202 — injection of factor ix (albumin fusion protein, recombinant), idelvion, 1 IU
- J7207 — injection of factor viii, (antihemophilic factor, recombinant), pegylated, 1 IU
